

## The Federal Court

When any national question becomes so prominent that it challenges the thousands of smaller community papers of the nation, to take up the issue on argument, then you may know that such a question has reached "the grass roots."

The foundation of this and all other nations ultimately lies in the mass of humanity, sometimes called "the grass roots."

Usually it takes something very unusual to "shock" the great mass of the nation to the point that down around "the old wood stove" the old fellow, unlearned and with not very much horizon of the future, will perk up his eyebrows and take a hand in "government." But in this good day, the uneducated have so many opportunities to "know." Generally the mass population takes the near cut and rather hear the facts straight from the shoulder. They know the difference between a coon and a polecat up a tree.

Everybody NOW knows that President Roosevelt has offered a proposition to improve the Federal Courts, as he thinks, and by legislative act, as he thinks, and without the long and uncertain method of the regular constitutional amendment. This has caused a great uproar, and the folks down in the "grass roots" are beginning to take up the fight. They are peering up the trees, with wide eyes, and sensitive ears, trying to find out what kind of animal it is in the tree. They are smart enough to find out who is "roaring and why."

Smart men and citizens of unquestioned patriotism are honestly differing with the president. Some are well acquainted with his plan to re-organize the courts, some do not understand what it is all about yet

they are against any change, on general principles.

What follows in this article is hoped to be just facts and plain unbiased reasoning. But for this Editor of a typical small town, purely American community, and none better in all the nation, we have "perked up" our ears, first when we heard the "uproar" and then thinking of the history of the past few years, and knowing a little bit of the far-past history of our country, we first looked for the "booger." We waited till we could read the official message of the President to Congress—we read it and for us we could see nothing to make any "roar" about but some good reasoning, liberally and humbly expressed. We actually looked for the worst. We listened to those who did think they had found something of the wrong odor. We then heard the voice of the president speaking to the nation. In each and every sentence we again tried to find the "booger." We have searched the Congressional Record, reading carefully and diligently what such men as Senator McKeller, Senator Norris, Senator Robinson, Congressman Rankin, and editorials from the Atlanta Constitution, and from the New York Times. Also we have read the opposing side from such men as Senator Connally of Texas and others. We have been trying to keep steady and not go off without investigation—our conclusion is that the best interest of the country lies in a few simple laws that will at once instill more confidence and more respect for the Federal Courts of our nation.

### IT IS A SIMPLE PROPOSITION

We are not justifiable in assuming that everything the President

suggest is selfish or from party view point, just to get a set-up of judges who will do HIS bidding. His bidding is not that strong, and could not be even if he wanted it.

Remember the Constitution only proposes a Supreme Court and such other courts as Congress may from time to time create by law.

Congress created the Supreme Court, and has varied its number from time to time and sets its scale of pay.

Congress created the Federal Circuit Courts, and appropriate money for salaries, etc.

Congress created the Federal District Courts.

Congress sets the salaries of all Federal judges.

Congress regulates everything till the judges start to "judge" then Congress is out of the picture. Judges in all federal courts, once appointed by the President, and approved by the Senate, hold their job for life, sick or well, old or young, and their salary cannot be lowered while they live, and nothing can interfere with them, unless they themselves misbehave or rankly neglect their duty, in which case Congress may impeach them and if convicted, be expelled from office.

The Supreme Court is only a part of the argument, what is proposed for one is proposed for all.

Recently Congress passed a law providing that if a judge wants to resign after reaching the age of 70 years, he may do so and still get his salary till death. That's a law NOW. We have heard no one kicking about that. But suppose a Judge prefers to keep on? His salary, of course, keeps on, but what happens if he becomes impaired for duty through ill health? We all love and honor the old judge, but is it safe to look to aged frailty to carry on such a responsibility? The judge may even reach 80 or 90 and still be good and sound, but suppose he is not? Somebody must do his work or the work will go undone.

Mr. Roosevelt merely says, "your

## PROCLAMATION

BY THE MAYOR

The week of March 22 to 25, inclusive, has been designated as:

### SPRING CLEAN-UP AND FIRE PREVENTION WEEK

This Spring Clean-Up Campaign should receive the enthusiastic support of every man, woman and child.

FIRST — Every citizen should have a wholesome pride in his home city, its streets, playgrounds, parks and buildings. Homes and surroundings freshly painted, with well kept lawns and gardens, increase property values and intensify community interest. Cleanliness creates cheer, courage and confidence.

SECONDLY, because every dollar in property destroyed by fire, which frequently is the result of "careless" housekeeping in the home and in the average place of business, is a serious drain on our present economic condition.

THIRDLY, and humanly most important, because in the past years entirely too many of our citizens have lost their lives due to carelessness in their daily use of fire, and the preservation of human life is an important matter.

NOW, THEREFORE, I, Joe Culbertson, Mayor of the City of Hamlin, do hereby designate the week of March 22 as SPRING CLEAN-UP and FIRE PREVENTION WEEK and most respectfully call upon all departments of the city, the Chamber of Commerce, Civic Clubs, Patriotic Clubs and our people in general to take an active part in this Clean-Up Campaign.

IN TESTIMONY WHEREOF, I hereto sign my name and seal of office this the 18th day of March, A. D. 1937.

JOE CULBERTSON, Mayor,

ATTEST: Hamlin, Texas.  
J. B. EAKIN, City Secretary.

Honor, if you have served us till you get to the age of 70, and if you care to "keep on" you may do so, but the best interest of the country is that a younger judge should be appointed by the president and approved by the Senate, to carry on" (in our judgment the judge, after reaching 70 should be compelled, like all army and navy officers, civil service men and women, and many industrial executives to pass into the retired list.) But Mr. Roosevelt is not going that strong. He realizes that in many cases, the judge, passing 70, might really want to keep working and may be able to do excellent work, so he says, "let him go on, but for safety-sake let's give him a young "partner." It would appear, really that if after that plan was started the case of an old judge and a young one of the same job would be rare for the older one would accept the offer to retire and let somebody else do the work.

It so happens that, right at this time, the Honorable Judges of the Supreme Court have a high age range. Five past seventy and one who will be seventy by June. This seems to be the "pivot of complaint." The situation gives one president an opportunity to appoint 5 men, if all of the aged men refuse to accept retirement privileges. It may not happen again in a hundred years that as many as six men in one administration would reach 70. Again let's wonder if there would be a "howl or roar" if six or seven of these judges should die or resign, and make it the duty of the president to appoint their successors? Such a situation would give a pain to some politicians, but no one could blame the president. Other presidents have appointed during their term or terms, from one to five or six. Here is betting a hole in a doughnut that if President Roosevelt had the duty of picking six men to fill vacancies he would find good men and acceptable men from parties other than his own—that has been the case before. Again no judge is fit to sit on even a district or circuit court bench who would renege a decision just to "fit Roosevelt." That idea does not seem patriotic to even think it.

So, let's assume that the Supreme Court might have as many as 15 members. It is reasonable to think a decision could be 8 and 7 just as it is now, sometimes 5 and 4. But reason will tell us what the chance for more than 9 will always be slim. Nowhere have we heard a single

## Church of Christ to Start A Series of Gospel Meetings

Horace W. Busby, an outstanding evangelist from Fort Worth, will arrive in Hamlin Sunday morning to begin a series of gospel meetings with the Church of Christ. His first sermon will be preached at the eleven o'clock hour Sunday morning. Preaching services will be held daily at 10:00 A. M. and 7:45 P. M., except on Sundays when the regular schedule will be followed on account of the Bible Study classes at 9:45.

EVANGELIST HORACE W. BUSBY of Fort Worth

Mr. Ervin Driskill, student in Abilene Christian College, will be in attendance to direct the singing in all the services during the meeting. He will be remembered by the work already performed in Hamlin in leading singing in the spring of '35

and again in '36. The song service under the direction of Ervin Driskill, will not be "showy and sensational," but a "spirit and in truth" that men may worship, "making melody in the heart to the Lord." You are hereby invited to come to enjoy and take part in this spiritual worship.

The congregation of the Church of Christ in Hamlin, extends a most hearty invitation and welcome to all who are near enough to attend this revival. This can be done with reserve, because of the great confidence held in Horace Busby, as a minister of Christ's gospel. His ability is evident from the success he has attained in all parts of the United States. He speaks the truth in firmness and boldness, yet with kindness, compassion and conviction. Each sermon will be so prepared and delivered in such a manner that those hearing cannot fail to be benefitted thereby. Hamlin citizens should hear the first and through to the last of these sermons.

### REMEMBER:

The beginning date, Sunday morning, March 21; the speaker, Horace W. Busby; the song leader, Ervin Driskill; the hour of daily gatherings, 10:00 A. M. and 7:45 P. M. the place, Church of Christ in Hamlin; closing date, March 30; and finally, that you are invited and will be welcome as you may come to each successive service in this revival meeting. You are always welcome at the Church of Christ.

WOODIE HOLDEN, Minister.

## Outline of Program P.-T. A. District Conference March 26-27

The steering committee of the Hamlin Parent-Teacher Association announces that all plans are finished and are working so that guests to the Fourteenth District Conference will be received next Friday morning, March 26.

Registration will begin at the High School at 9 o'clock. Homes will be assigned at that time and delegates may go to their places and leave baggage before the program begins at 11 o'clock. Mrs. Tom Williams, homes chairman, asks that everyone who has promised a room to have it ready early Friday morning so it can be entered. Some of the people will have a long way to come and may not arrive before the program begins. In this event they cannot go to the assigned homes until 5 o'clock. So, look for your guests between 9 and 11 A. M. or 5 and 6 P. M.

In the morning session greetings will be extended from Hamlin's different Civic Organizations, reports given, District Officers presented, Music number, and a talk on "Health Problems the P.-T. A. Can Solve" by Miss Nellie Ayers, State Health Department, Austin.

Luncheon for all visiting delegates will be served at the Methodist Church by the Womens Missionary Society. Mmes. G. R. Bennett, M. T. Hudson, Tom Teague and Bill Rountree will be hostesses.

At 1:30 Mr. G. R. Bennett will conduct a Tree Planting Ceremony at the High School. Local unit reports and Instructions from the State and National Congress will be given by Mrs. C. E. Roe, National Field Secy., Washington, D. C. and Mrs. M. A. Taylor, Bonham. Evangelist Horace W. Busby of Fort Worth, will talk on "The Homes' Responsibility in Spiritual Education."

A buffet supper will be served at

the Baptist Church at 7:00 o'clock. Mmes. W. L. Boyd, Tate May, Ted Russell, W. L. Fletcher and J. A. Roberts will be hostesses. Forrest Greenway will offer piano selections.

An operetta, "The Coming of Spring," will be given by the primary pupils at 8:30 in the High School Auditorium. Mrs. C. E. Roe will be the main speaker for the evening. A violin quartette from McMurry College, Abilene, with Miss Ruth Lasley, directing, will be on the gram. The entire Hamlin community is urged to attend this program.

Saturday morning's session will begin at 9 o'clock. Miss Violet Greenhill, Child Welfare Department will speak on "The Child Welfare Department and Our Homes." Mr. C. G. Green will conduct a panel discussion on "School Problems the Home Should Share." Superintendents O. C. Thomas, Spurr, K. E. Oberholtzer, Lubbock, and Dr. A. W. Evans, Texas Tech, Lubbock, will present different phases of this subject. A Safety Feature by the State Highway Department, will be given.

Luncheon will be served at the Morgan Hotel at 1:00 o'clock, a courtesy of the Lions Club, Rotary Club and The Hamlin Chamber of Commerce. Mmes. L. H. McBride, W. R. Calhoun, Loyd Sebastian and John Howard will be hostesses.

This is only a sketch of the program and there will be many other things equally as interesting as the ones mentioned. This conference has been brought to Hamlin to help parents and teachers. The Hamlin local unit invites and urges every parent in this entire community and rural section to attend every program.—Publicity Chairman.

## The Supreme Court . . .

—Continued From Page One—

anybody would take away any of the independence of the courts, or their freedom of action. But we have heard and read that all judges are human and they, are likely to be biased because of training, or service, of interest, of viewpoint from the angle of the past, and inability to look far down into the future.

Let's all recall history, let's not go off too quickly, talk without thinking. Remember that most controversies about the Supreme Court rulings have come on a question concerning social and economic questions.

The last few years found this nation puzzled because of our social and economic problems, different to what we had ever had before. No human mind could have foreseen our present or recent situation as far back as 1870 or even far later. The point that irks many people—that the Constitution is interpreted so narrow that it forbids laws to help our social and economic ills.

Facts show that in most decisions involving social or economic questions the supreme court has rendered

ed against them.

Facts show that the keenest criticism against the court is from the dissenting judges—judges disagree with one another and it seems not unnatural for laymen or even presidents to speak their minds on what a court or judge says is or is not according to our constitution. In fact the recent years have revealed to us that the constitution is what one or a small group of men feel or think it is. Is our fundamental law a matter of opinion?

It is possible that the more we analyze the assumed functions of the courts the more we realize the weakness therein? Recent years when our affairs were in such a depressed condition and the Congress tried to reach a way to recovery, it was no uncommon thing to often hear our best citizens remark that if we are doomed by the courts, why have a congress or president? In desperation people want something done, and if a court checks efforts, and disturbance comes, then there is a likelihood of disrespect for the courts. If men have lived so long they can not see the new day, the fellow from the forks of the

creek begins to wish for a younger power to act. That is natural, and no especial disrespect to the courts.

In recent weeks the people have had an awakening on their national judiciary system and some seem to think any change will spell precedent for even a greater change in the future, while others take the view that nothing but good can come of the proposed change. It would seem that all should believe our nation is going forward, whether our supreme court has nine or fifteen men as judges, whether they be under or over 70, whether Roosevelt or some other good man has the job of President.

The cry of "dictator" in this country is too far fetched and too groundless to be listened to. That is nothing but political "slush". The "grass-roots" folks hold the power and will listen and wonder till it becomes their turn and then it is that they turn the wheel of state. If they get a horse in the harness who will not pull right, they soon unhitch him. That is why we have congressmen elected each and every two years, and senators every six years and a president every four years. The only reason for having more than one judge is that perhaps there will be enough safety in all of them to overcome any danger in any one or few of them—a federal judge is an "all-life" official and what he does that is not exactly fair may be overcome by his more liberal thinking associates. It is a good thing that even the highest court is a creature of the elected power, and must look to congress for even its maintenance and existence. It is well and good that we have three departments of government but we must remember the original power lies in the elected branches which are subject to change every two or three years.

In the meantime we shall continue to listen, to accumulate facts and figures on this national question and never let us fear for the consequences.

The Herald has the record on hand to review and all of us can be better citizens by knowing more of the past and present machinery of our great republic. It is a good old machine but it must have some new parts occasionally and maybe the wheels get clogged often with selfish interests—but the boys down in the pasture will clean 'em out. Let's go! and fellers, up there had better not drag their feet. If you don't pull, get out.

Spring's here, but let's not put any loud "new suits" on all the old oil bogeymen. After all, botherless engine lubrication gets down to a few calm facts that are facts.

No. 1 . . . You want to be certain that your engine doesn't grind every time you start, while oil is "coming up" from below. Oil-Plating, produced only by Conoco Germ Processed oil, can never lose time "coming up," because it's already there!

For the patented Germ Process creates such a powerful attraction between oil and metal that the inside of your engine becomes *Oil-Plated*. And you know that platings aren't runny, but stay up in place. That's the way Oil-Plating will stay up to ward off all the worst starting wear you ever heard of.

And No. 2 . . . Whether you've got a "good old car" or the latest thing, you

want to make any driving schedule without being nervous about the heat indicator and the oil level. You can easily keep them where they belong. This is exactly why: the Germ Process creates a far stronger normal type of oil film and then checks friction still further by means of modern Oil-Plating—entirely extra . . . exclusive to Conoco Germ Processed oil. Costs no more when you change; costs you less all season. Continental Oil Company

"The treatment of a button hole varies according to the material and style of the garments. Tailored garments require a heavy button-hole made with heavy twist, or the buttonhole may be bound with silk or satin or with the material itself. Buttonholes on cotton garments are usually made with cotton thread and are made to show as little as possible. Some button holes are barred at both ends as in the front of a man's shirt, or on garments having buttonholes placed lengthwise in a plait. Button holes on bands, cuffs, and in places having a distinct pull or strain are worked with a fan shaped end, the fan end having more strength and elasticity than the barred one.

"A buttonhole is usually cut on the right hand side of a woman's garment so that the lap is from right to left. On men's garments the lap is reversed. Buttonholes are commonly cut on a thread of the material," says Mrs. Billy Gray, our sponsor, in our meeting of March 4. There were twenty-six members present. ### MRS. H. E. PALMER, An Aged PIONEER, DIED SATURDAY

One of the very few persons of this community reaching near ninety years of age, passed away last Saturday morning, March 13, Mrs. H. E. Palmer, the mother of Mrs. R. A. Crockett and the grandmother of Curtis Martin of this city.

Mrs. Palmer had made her home with her son, W. F. Palmer, till his death about two years ago. Since that time she had lived with her daughter, Mrs. Crockett and husband, at the Crockett home three miles west of Hamlin. She would soon have been 87 years of age.

Mrs. Palmer was a native of Tennessee and she and her husband came to Texas more than 60 years ago and settled in Nacogdoches County, Texas. There they bought a farm, cleared and prepared it for cultivation, built their home and reared their family. She retained this home until death.

She is survived by one son, M. S. Palmer, of Brownsville, Texas, and a daughter, Mrs. Crockett of Hamlin. She had been a member of the Baptist Church for perhaps 70 years and had lived a very active life.

The Barrow Company prepared the body for shipment to the old home county, and a number of friends accompanied the remains to Sweetwater Saturday night for the journey to the old home cemetery in Nacogdoches Co.

## PLASTERCO NEWS

The surprise marriage of Mr. Wilmoth Wallace and Miss Irma Locke was announced last week. They were married on Christmas Day, so we are told by Bro. Joe Hull. And we wish them the happiest years possible. Wilmoth is the son of Mr. and Mrs. O. L. Wallace of Plasterco.

We have organized a Singing School at Plasterco. We intend to visit other singing schools and would like for them to visit us. Everyone is welcome. In June we plan to have a singing teacher dome and teach us.

### MRS. CARR HOSTESS TO MISSIONARY SOCIETY

The Women's Missionary Society of Plasterco, met at the home of Mrs. H. C. Carr, Tuesday at 2:30 o'clock.

Scripture reading by Mrs. O. R. Criswell, and then games of Easter-time were played. A color scheme of yellow and white streamers from the center of the room, also a pink rabbit in a yellow and white basket (for the Easter motif).

The following guests were served by Mrs. L. E. Hines and Mrs. H. C. Carr: Meses. C. R. Williams, Ira Parker, Glen Bond, Avle Anderson, Andy Anderson, H. M. Rawlins, J. W. Riddle, Jim Hudson, O. R. Criswell.

### PLASTERCO CLUB MEETS

The Plasterco Home Demonstration Club met at the home of Mrs. J. D. Barner Monday, March 15th.

"Space should be left in the yard for children's playground," said Miss Jewell Hipp, Asst. Co. H. D. Agent. "Children will more than likely enjoy staying at home if they have a desirable place in which to play. When planning the yard, a group of trees may be planted in order to shade the see-saw, slide or sand pile."

Ten members, the County H. D. Agt., Miss Vannoy, and Miss Hipp, were present. The next meeting will be with Mrs. J. D. Barnes.

### HONORED WITH PARTY

A birthday and an old-time friendship party was given at the home of Mrs. M. L. Tolar Monday night at 8:00 P. M.

The birthday was Mrs. Ira Parkers. How old? We better not tell. Anyway a big box of gifts were given her as a token of love and friendship.

The friends were so glad to have as a guest from San Angelo, Mrs. Sam Teague, who formerly lived at Plasterco; also Mrs. Nora La Grove of Louisiana. Both are daughters of Mrs. M. L. Tolar.

Hot chocolate, coffee and vanilla wafers were served to the following: Meses. W. R. Calhoun, E. F. Fairley, Ira Parker, Glenn Bond, W. B. Elkins, J. T. Ware, H. C. Carr, L. E. Hines, J. W. Riddle, Sam Teague, J. D. Barnes, H. M. Rawlins, M. L. Tolar, Nora La Grove, John Gibbons, Celia Essary, Rufus Fancher, Jim Hudson, and O. R. Criswell.

### SENIORS EXTEND THANKS

The Senior Class and Sponsor want to take this opportunity to thank the Methodist Missionary Society and Rev. Hanks for the lovely reception given in the class' honor Thursday evening, March 11.

The Methodist Recreation Hall was decorated and all appointments carried out the St. Patrick's motif. The guests were graciously greeted at the door by Mrs. J. E. Moody and Mrs. Ed Bailey, Mrs. Gordon Bennett, President of the Missionary Society, with the following ladies formed the receiving line: Mrs. Clinton Barrow, Mrs. Joe McCrary, Mrs. Raymond Jones, Mrs. Bill Rountree, Mrs. Ray Willingham, Mrs. Tom Teague, Mrs. Herman McBride, Mrs. Dee Campbell, and Mrs. Hanks.

Mrs. Bennett gave a welcome address. Dr. J. T. Brabham, President of McMurry College, with eight of his college students, brought a most entertaining program. Afterwards an attractive refreshment plate of lime sherbert and angel food cake was served to the Seniors, School Faculty members, McMurry and other guests.

The Seniors certainly appreciated and enjoyed this entertainment given by the ladies.

THANKS J. B. And say, Tulia is our former home, and if it wasn't for the fact that we still have a good mother-in-law there who sets a good table, we surely would eat at your Blue Bonnet Cafe when in Tulia. Good luck to you.—EDITOR.

### Poorly Nourished Women — They Just Can't Hold Up

Are you getting proper nourishment from your food, and restful sleep?

A poorly nourished body just can't hold up. And as for that run-down feeling, that nervous fatigue, — don't neglect it!

Cardul, for lack of appetite, poor digestion and nervous fatigue, has been recommended by mothers to daughters — women to women — for over fifty years.

Try it! Thousands of women testify Cardul helped them. Of course, if it does not benefit YOU, consult a physician.

### Where Were You Feb. 30?

THAT isn't a trick question for there actually was a February 30, 1936, and if you had happened to be in a certain place at a certain time you could have written that date in your diary. Here's how it is:

February 30 comes in leap years only and under these conditions:

Eastbound ships in the Pacific ocean which are crossing the 180 degree line on February 29 of a leap year enter the official date for the next day as February 30. If they approached the line on any other day in the year, they would enter the next day as the duplicate of the date just passed. Thus there would be two January 1 dates, two July 4, etc.

However, there has grown up a custom in ship navigation eastbound across the time meridian of signaling the day after February 29 in leap years as February 30, thus bringing the next day in as March 1. So if you should happen to be on a ship at such a time in that part of the Pacific you could write a letter back home to the folks, date it "February 30" and you'd be correct.

Of course, if you wanted to have a unique birthday you'd have to arrange to be born out there in the Pacific. But it would have to be on board ship, too. For the time meridian jogs and meanders to avoid islands and touches no land surface. You'd have to arrange with your parents to be on a ship traveling eastward near the 180 degree meridian in the Pacific ocean on the last day of February in a leap year.

Maybe it isn't worth the trouble, after all!

## "Magnificent Failure"

IN ALL the history of missionary work in America, there is no more remarkable record than that of David Zeisberger. For 63 years he labored among the Indians and during that time he traveled many thousands of danger-filled miles through the wilderness on foot and by canoe. He built no less than 13 Indian towns as centers of Christianity in a heathen land and he lived to see all but one of them wiped out of existence. He had failed but truly his was a "magnificent failure."

Zeisberger was born in Moravia in 1721 and in 1740 came to Georgia where his church was organizing a mission among the Creeks. Next he was sent to Pennsylvania where he aided Count Zinzendorf in building the Moravian towns of Nazareth and Bethlehem.

Beginning his work among the Delawares at Shamokin, Pa., he was adopted by the Munsey tribe of that nation. Then he went to New York where the Six Nations made him a sachem and keeper of their records, an unusual honor for a white man. When the French and Indian war began he was compelled to return to Bethlehem because both French and English were suspicious that his charges were partisans.

After Pontiac's conspiracy had been crushed in 1763 the Moravian led his flock to Wyalusing, Pa., and established two more missions on the Allegheny and the Beaver. Then the call for service beyond the Ohio came to him and in 1772 he founded Schoenbrunn ("Beautiful Spring"), the first white settlement in the future Buckeye state. Next the town of Gnadenhuetten was established and an era of peace began.

But trouble was brewing for him. Although Zeisberger restrained the Delawares from taking part in the Revolutionary conflict, he soon found that he was under suspicion by both the British and the Americans. The British stirred up the Wyandots to break up the mission at Schoenbrunn and its teachers were tried as American spies. Finally in 1782 came the crowning blow, when a party of brutal Americans committed the hideous massacre of 96 Christian Indians at Gnadenhuetten. The broken-hearted Zeisberger started with the remnants of his flock on a journey which took them first to Michigan, then back to Ohio and finally to Canada where he founded Fairfield on the Thames river.

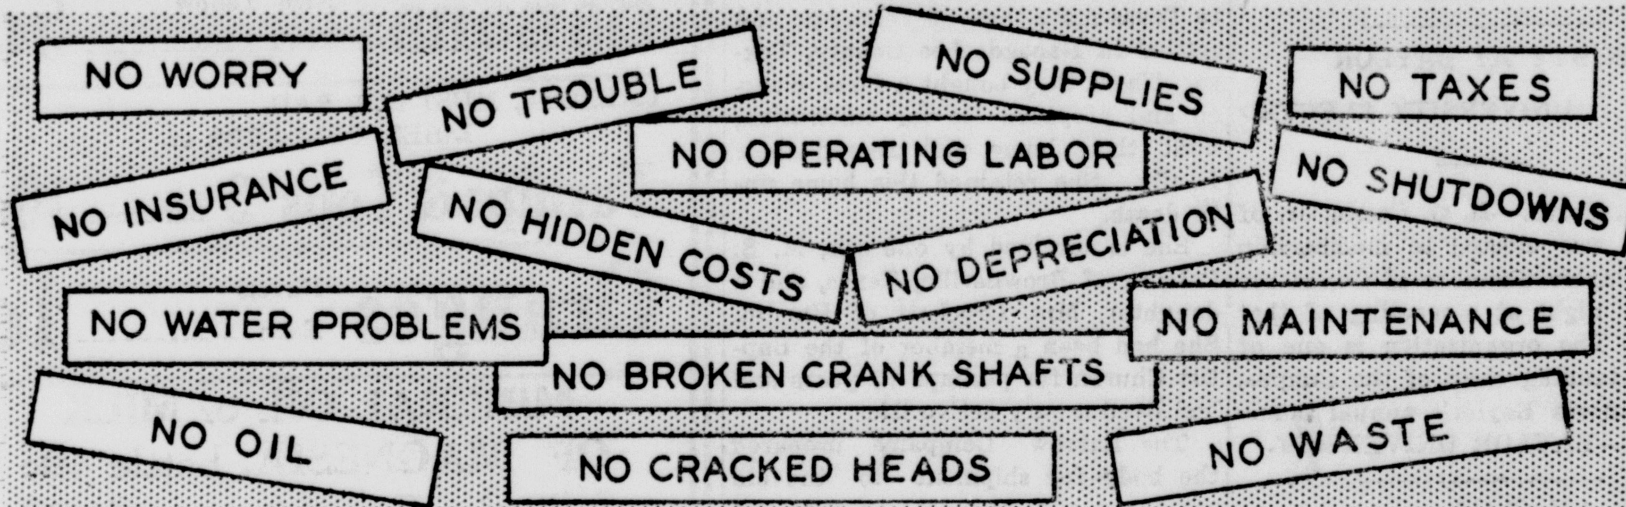

In 1798 the Moravian Indians and their leader came back to the Tuscarawas river in Ohio where Zeisberger founded his last town—Goshen. There his "long life of amazing fortitude, faith and patience" came to an end in 1808.

## COMPANY COMING

Hamlin folks, do you remember the time, away back yonder when your parents were expecting "company?" Remember how you brushed up the yard, polished up the "brass" and cleaned down the windows, put on new bed-spreads, and had to scrub the floors and even your necks and put on your best manner—all because company was "a coming?" Remember that? And how you had to "wait and eat the 'necks and feet?'" Remember that?

This is a reminder that Hamlin is soon "agonto" have some visitors. They will begin to arrive here next Thursday night or afternoon, and by Friday morning the town will have a host of ladies, who can see a pile of dirt and trash a couple o' blocks away.

It's time to clean up. There is plenty of trash, dirt and real filth that no visitor should see in a nice little city like Hamlin. Time is short too. If we brush up our front yards, shine up the places about town—better get busy.

The District Parent-Teacher Association Conference is due to open here Friday morning, March 26. There is plenty to be done. It looks like the city is starting to do something about cross-street crossings. A lot of dirt, almost at every crossing, is piled out, maybe to be scattered, but maybe to remain there till it grasses over. Let's hope that part of the streets will not look like "dog town." You see Hamlin is by nature a hard place to keep clean and tidy. It has a slow drainage, and the dirt is black. Ditches fill with water and become soft enough to bog down a mosquito. There is a lot of floating trash and the wind is no respecter of persons. Visitors coming from places of white sandy earth and rolling streets after traveling along clean, paved wide

roads, will be shocked to find a dirty Hamlin — let's don't let 'em find us untidy. It is YOUR business, and not somebody else's. It is a poor incentive for one or two places to be clean and a dozen on the same street worse than "Tickville."

It ought to be against the law for a newspaper to print that the town needs cleaning. This very piece is enough to let those out of Hamlin know we need a cleaner town. It's a bit embarrassing to admit it, but folks, WE DO. Company is "a coming" and not long off.

&amp; &amp; &amp;

## SIT DOWN DANGER:

The temper of the American people is becoming aroused gradually by the Sit Down method of confiscation of property.

This act of workers is plainly unlawful and so recognized in the high halls of Congress. Why does the government not enforce court orders to cease such "sit-down" interference?

Are the people being led to believe somebody is afraid to march up to factory doors and make arrests?

If that is the case we are getting in good shape for trouble. If the "sit-down" is tried in some states, some governor will march his state troops in and prove who is to control in the affairs of good government. There should be no flinching when duty calls.

Workers may be right in wanting certain hours, wages, privileges, etc., but to confiscate a public necessity is un-American.

This sit-down craze is going to cause some real "downs" if it continues.

## Sacred Harp Singers

SOMETIME in the late summer go down into the South and attend a convention of the Sacred Harp Singers. When you do, close your eyes as they sing and feel yourself transported from modern America back to Elizabethan England.

For the Sacred Harp Singers cling to the "fa-so-la" singing of that far-off period, the "fa-so-la" being the names of the notes with which the major diatonic scale began. Because they have refused to take into consideration the "do-ra-mi" and "si-do" added later, they have been called a "lost tonal tribe." They also use the old "square notes."

The Sacred Harp Singers have borne that name for almost a century, taking it from a book of hymns called "The Sacred Harp," published in Philadelphia in 1844. First compiled by B. F. White and E. J. King of Georgia, it has gone through many editions and many hymns have been added. Most groups use a book called "The Original Sacred Harp," published in 1911, which contains all the songs in former editions.

On some week-end between early July and early September, when their crops "have been laid by," the Sacred Harp Singers gather for a convention. The president opens it with a song, then a chapter from the Bible is read and the chaplain leads the group in prayer. Thereafter the Sacred Harp people frequently sing all day with ten-minute recesses every hour and a half.

## KNOW TEXAS

Denton, March 17.—While nations of the world vie with one another in contributing to the progress of aviation, Texas has managed to hold its position as a leader in this field.

Such factors as the great amount of open country in this state, the high percentage of clear days, and the relatively warm winters caused the national government to center its military aviation training here during the World War. Randolph Field often called the "West Point of the Air," was established near San Antonio, and is now one of the greatest military fields in the world.

Apart from the army set-up, six commercial airlines operate regular schedules between important cities within the state. They connect with the national lines to Chicago, Atlanta, Ga., Charleston, S. C., and New Orleans, as well as with the trans-continental line from New York to Los Angeles and the international air system to Mexico City.

Airports in Texas total 133, this compares favorably with the national total of 2,369. A general idea of this state's rating can further be seen from the 1935 statistics, which show 8,613 airplanes in operation in the United States, 449 being in Texas. The number of licensed pilots in Texas reached 728 in 1936.

Miss Imogene Shuff, of Sweetwater, was a guest of her sister, Mrs. John A. Bode, during the past week-end.

*It's farther  
between filling stations  
in the Ford "60"*

THE 60-horsepower Ford V-8 engine was first developed for Europe, where fuel costs are high. Two years' usage there proved its unusual economy.

When the "60" came to this country this year, the Ford Motor Company made no mileage claims—waited for facts, written on American roads by American drivers.

Now Ford "60" owners are reporting averages of 22 to 27 miles on a gallon of gasoline. That makes it the most economical Ford car ever built!

Best of all, the Ford "60" is just as big and roomy—just as handsome, sturdy and safe—as the famous 85-horsepower Ford V-8. And it sells at the lowest Ford price in years.

If you want a big car for a small budget—a car you can drive with pride and profit—see the thrifty "60" soon!

### POLITICS

There is still no one in Washington or Austin saying anything about the enormous spending of national and state funds. The wild waste of tax revenues goes merrily on, and there is yet no one to say nay.

If I had a few extra hundred dollars, I would be tempted to start a suit in the name of the taxpayers to stop this plain violation of the law in using the current revenues of this year to pay discounted warrants issued last year, thereby diverting the funds from the purpose for which the provision has been made for their payment.

I might not get anywhere, but if the courts are as pure and holy as some of these muckrakers who are abusing the President say they are, then we could by putting the issue squarely up to the courts stop this illegal issue of warrants until there is money in the treasury to pay them.

There never was a time when it was as imperatively necessary to invoke the demand of the "Old Alcade" Roberts "to pay as we go" as it is now. Anyhow I am going to think about it and in the meantime if any of you boys away out there by the side of the road think well of my ideas of stirring up the animals just drop me a line.

There are eight candidates for the Congressional position just made vacant by the death of the Honorable J. P. Buchanan, who filled the place for 24 years. To use the cow man's vernacular, these boys that are running are a good looking bunch of bullies with as much energy as brains if not a little more so, and I look for them to stir up the dust pretty soon in an ambitious effort to stamper the people into voting for them. Already they seem to be about equally divided on the question of "fur the President and again the Court and fur the Court and

### PRESIDENT ROOSEVELT

President is just one of the humans that wants to do something for the under dog and make it possible for dad to bring home something to eat and wear for Sally and the children from work on the farm and factory, and he wasn't thinking about the Courts or the Constitution until these old men on the Court got in his way and stopped almost everything he tried to do. Of course, when they got in his way he just got his dander up like you and I would under the same conditions and we are going to have a cat and parrot scrap until the thing is settled. It is plum ridiculous to talk about waiting twenty years for the people to pass a constitutional amendment. This would be entirely too long to wait and in the meantime everybody might be hungry and out of a job, and the people would start a real revolution, and everybody knows that no court or constitution ever stopped a revolution.

### TOM CONNALLY

Tom Connally in his speech against the President said the Supreme Court was made to control Congress and the Supreme Court was made to control both. Yes, that is true, but he forgot to say that the President with the aid of the Senate were by the same constitution given power to appoint the judges of this Supreme Court, and that is all the President has sought or wants to do—to exercise the powers conferred on him by the same constitution that the big lawyers say they reverence so much. Appointing Judges is the President's business and it is not anybody else's business. If he, in the exercise of that power, did not appoint people who thought like he did and believed like he did, then I would not be for him. He would be unsafe to be trusted with power.

### SUPPOSE

If the duties of the Supreme Court

need more Judges to keep up with its work, then it is folly to contend that the additional judges should not be provided for merely because the President might appoint somebody who he is friendly with. What would the people say if President Roosevelt should appoint Ex-President Hoover? The first thing these big lawyers would say is that he had betrayed the powers vested in him by the "Constitution." Correct. It is natural to appoint our friends, and it is unnatural to appoint our enemies, real or political. Every member of the present Supreme Court was appointed as the result of some friendly or political reason.

### SIMPLE DUTY

President Roosevelt is not asking that any judge be removed or that he change his opinion on any litigation present or prospective. He is only proposing that he under the powers of the Constitution vested in him (and nobody else) appoint needed additional Federal Judges who are mentally and physically qualified to function.

### FARROW BURNS JOINS

#### U. S. NAVAL SERVICE

Farrow Burns, son of Mr. and Mrs. Arthur Burns, of this city, left Monday for Dallas and from there to the Training Station at San Diego, California. Here he will remain for twelve weeks. After the first training he will be assigned to some Trade School or to duty on board a naval vessel.

Farrow is a graduate of the Hamlin High School and for several years has clerked in different stores here. He should get a wide experience in the Navy.

G. E. Nicholson of Winters, came up on business Tuesday. He reports his wife in a serious condition. It will be remembered she has been very ill since last October. Mrs. Nicholson is a sister of Mrs. W. R. Wilkerson and Mrs. Carl Greenway, of Hamlin.

### MOVED TO ANSON

Last Saturday Hamlin lost a couple of its highly esteemed citizens. Mr. and Mrs. Maurice Smith moved from this city to Anson to live.

Several years ago Attorney Maurice Smith came over from Anson to practice law in Hamlin and later married Miss Louise Day of this city. They made their home here till last week.

Both of these young people will be missed. Mr. Smith was a prominent figure on our streets and in the affairs of the town. He will be remembered by his pleasant bearing—but why say this. He will be coming back often and maybe will not be missed at all. You see his dad-in-law lives here and what good table the mother-in-law sets!

Mrs. Smith has for a long time been taking a prominent part in the social and church affairs of the city and her place as pianist at the Baptist church will be hard to fill. She may be in Hamlin quite often during the week, but on Sunday she will be

in her church place in Anson, as long as it is her home. Hamlin regrets to lose this good couple.

### McCAULLEY BAPTISTS

#### TAKE STUDY COURSE

The McCaulley B. T. U. took study courses last week, March 8-12. We considered the week well spent, as it was enjoyed and also very valuable to all who took part. The Senior and Adult Unions combined, studied, "Witnessing at Home and Around the World."

The following is a list of those who took the course: Rev. Jno. P. Hardesty, pastor, and wife, Mr. and Mrs. Roy Hennington, Mr. and Mrs. Jack Johnson, Mrs. Levi McCollum, Mrs. W. F. Davison, Mrs. W. H. Stephenson, Mr. Edwin Johnson, Misses Alline Akins, Nola Akins, Francis Miles, Velma and Agnes Faulkenberry, Lillie and Lillian Akins. This course was taught by Wesley Akins, a young Baptist preacher from our church.

The intermediate class studied, "Training in Bible Study," taught

by H. P. Powers. The following is a list of those taking the course: Hallie Fae Faulkenberry, Lorene, Mabel and Ludell Mitchell, Dorothy Mills, Francis Davison, Katy, Corrinne and Latane Akins. —REPORTER.

Frank Hall, age 24 years has been hovering near death for several days with pneumonia. However reports are that he may pull through. Frank has been with the Hamlin Hatchery for about ten years, in fact, every minute since it started. He has taken so much responsibility that while in his delirious condition he is carrying on in his vigorous manner, even to the point of exact days and details.

### TEXAS TECH REPORTS

#### HONOR ROLL STUDENTS

Paul White and Lee Norris, both of Hamlin, Texas, made the semester honor roll at the college with an average grade of B, and A, respectively.
